A: 371 Taylor Street  
Toowoomba QLD 4350

## ABOUT THIS COURSE

Working at heights is by nature a hazardous practice. The risk of injury or death to either workers or other people in the area is a serious concern. This course specifies the competency required to undertake safe working practices when working at heights or depths. This course is highly suited for employees working within the energy and mining sectors who may be required to work at heights and use safety harnesses and fall arrest equipment.

## PREREQUISITES

There are no prerequisites for this course.

## WHAT WILL I STUDY?

This course will cover the theory and practical functions involved with working at heights. The main topics that will be covered include:

- How to identify working at heights
- Methods of working at heights
- Fall protection systems
- Components, capacities, rigging and inspections
- Tools and equipment handling
- Hazards associated with working at heights
- Rescue requirements
- Maintaining equipment

## ASSESSMENT

Participants will undertake a theory assessment and a practical assessment. The theory assessment assesses whether each participant has adequate underlying knowledge to successfully work at heights. The practical assessment assesses whether each participant has the requisite skills to be deemed as competent in working at heights.

## WHAT MATERIALS/EQUIPMENT DO I REQUIRE?

- Participants must wear work clothing including long-sleeve shirts, long pants and steel-capped boots.
- Workbooks, study guides and other learning material will be included within the course.

## COURSE OUTCOME

On successful completion of assessment, a nationally recognised Statement of Attainment will be issued by Broadspectrum Training Services under the competency RIIWH5204D Work Safely at Heights.

## DURATION, DELIVERY METHOD, PARTICIPANTS AND PRICE

- 1 day
- Delivery may be provided on or off the job
- Maximum participant numbers will apply at 10 people
- Individual or group bookings available
